## Who We Are

GOOCH TOKEN is a community-driven token that rewards its holders with 3% redistribution. You will be rewarded for HOLDING.

Many other cryptocurrencies are shooting for the moon, Gooch is also aiming for the cleftal Horizon. Without a purpose, we are determined to follow in our community's footsteps, helping where ever possible while putting smiles on the faces of those who are less fortunate and of course our token holders!.

Furthermore, our tokenomics design which incorporates transaction taxes will keep building the price floor. 3% redistribution goes back to token holders, while 3% goes back into liquidity.

## Tokenomics

## User Experience

Our main goal is to make it as user-friendly as possible to get involved with our community.

### Lotteries

Gooch Token is committed to sharing the wealth with those most in need and will entice users of the community to participate in our lotteries which will take place each week.

### Benefits for Token Holders

- Profit redistribution will be carried through Gooch Token airdrops and Lotteries
- The ability to get paid through redistribution of wealth periodically in the form of the token according to the number of tokens held.
- Tokens are expected to increase the value of the targeted asset as soon as the actual trading is available
